

Dear FLP Justice Chief. Cara Golashesky, 1 May 2015

It is nearly a month now and you still have not provided me with any of the facts I have requested to understand address the false accusations against me which resulted in your "Declare Order." As I said in my previous two letter these are unfounded and I do not accept your declaration and reserve all my rights.

I find it very interesting to read this on your Freedom Website..

**You boldly accuse Alex Gibbons of exactly what it is you are doing to me.**

From your Freedom Website

Your posted March 12 2015 Letter to Shelia Nevins from Karin Pouw: here are some key points

Re Alex Gibbons:

"He never let us provide him or HBO relevant context and factual information. He never even asked the Church any basic fact-checking questions. That explains why it's full of errors."

*You never let me provide you relevant context and factual information. You never even asked me any basic fact-checking questions. That explains why it's full of errors. **Why won't you send me the facts you have based your decisions on as I have asked for twice already?***

*My daughter Spring Austin has been involved in Scientology all of her life, as has her mother and I have always been I have been supportive of her in being free to make her own choices and do as she pleases without any negativity.*

Later you continue in your March 12 letter re Gibbons:

"So by withholding information on who was making what allegations, leaving us to guess at a myriad of possibilities, we never had any opportunity to refute claims that ended up in the film. That's bias."

*So by withholding information on who was making what allegations, leaving me to guess at a myriad of possibilities, I never had any opportunity to refute claims that ended up in the Declare Order. That's bias. ? In this country you are innocent until proven guilty and yet you violate my rights and yet you declare me guilty without giving me any chance to see the data and context of the information you have based your Declare Order on. For me this is a humans rights violation of incredible magnitude.*

“(He) was only interested in the story he had already sketched out two years earlier, rather than a fact-based story, is the very definition of propaganda.”

*You were only interested in the story you had already sketched out from a source I imagine is my brother, rather than a fact-based story, is the very definition of propaganda*

Your letter continues:

“these sources are not credible and will say anything in front of a camera to get revenge”

*Your sources are not credible and will say anything to get revenge. My brother has been accusing me of all sorts of wild things for 35 years! He has accused me of being suppressive because I use clinical hypnotherapy in my work despite the fact it is an approved method by the AMA for over 50 years. Or do you declare all hypnotherapists and medical doctors too?*

*He has constantly nattered about me ever since I missed a withhold on him when he had a long-term relationship with someone who was gay. He has refused to acknowledge this as he has feared he would be not allowed in Scientology. He hides this greatly and in the past 45 years he has never had a relationship with a woman.*

*My brother has been in a low tone state for most of his life as is apparent by his collapsed second dynamic. He is what might be called a “computing psychotic” in Scientology terms ( see Advanced Procedures and Axioms). The one time he allowed me in his apartment it was filled top to bottom with boxes. He was a hoarder of incredible proportions! He had plies of boxes of my grandmothers things he had never even opened from 10 years earlier.*

*And then what does LRH say about expanding out through the dynamics as an indictor of sanity in Handbook for preclears? He never had any relationship except with the fantasies in his mind thinking that only Mariah Carey was good enough for him and that she should only be with him!*

*Then he particular went wild when my mother died a few years back and has been caught in some very psychotic tendencies starting to wear my mother clothes. He went around accusing me for weeks of stealing a special list he made of my mothers things and screamed horribly about what” I did to him” to my kids and myself before finding his precious list a week later!*

*How is it that he has third partied me and this is taken as facts?*

*Why didn't he send me copies of his “Knowledge Reports” as is required by your HCO PL's so I can provide you the entire truth?*

*No he is very clever and his decades of 1.1 covert hostility came to light as he needed some excuse as to why he makes no progress and at best roller coasters. Please how*

*can I be his problem when I haven't seen for him for 2 years and perhaps in one conversation over the phone to wish him a happy birthday.*

*And please know I have been very supportive of my brother getting Scientology training and processing HOPING he would change. Yet this latest attempt to destroy me and my family, to place a wedge between my daughter and myself and both my sons is an act of treason to our family as it is his final attempt for power from his low tone place of victimhood.*

*Isn't the fact he has made no progress and has been routed off lines on various occasions as either PTS or NCG make a statement. He has played victim his entire life and out of jealousy third partied me to my mother and grandmother for financial means. He is the ultimate manipulator and even had me support him and put him through different trainings to provide him a career in radio and insurance. By any measure he has been a downstat raging at me because I had success raising a family and doing many helpful things in this world.*

**"The Church is passionate about the First Amendment—both freedom of speech and the free exercise of religion."**

*I too am very passionate about the First Amendment—both freedom of speech and the free exercise of religion. It seems I am being targeted because I am not currently online nor want to.*

It is sad as we share many similar goals and if you really looked at my work you would see how I have done so much for the past 15 years educating people about the dangers of psychotropic medications and sharing my approach in helping people become medication free. My programs are based on 40 years of research and development that has integrated all the knowledge of many fields I have studied and worked in. I have traveled all over the world being trained in many modalities of alternative therapies. Everything I do is directed to goals aligned to yours.: a civilization without insanity, without criminals and without war, where the able can prosper and honest beings can have rights, and where Man is free to rise to greater heights. I too seek only evolution to higher states of being for the individual and for society.

Now are you telling me that I can only work toward these goals if I am a Scientologist and that the knowledge from which LRH used as a foundation can only be used exactly as he interpreted it? Aree you saying that my interpretations of the sources he drew from are meaningless and only what he says is acceptable or else you are declared suppressive and accused of copying Scientology works? If this is so then I guess all your talk about seeking freedom is a lie. I have studied and practiced 40 years the knowledge from many ancient wisdom sources and modern therapeutic approaches and integrate all in the work I do. I have studied in India with gurus, in Africa and the Amazon with shamans. I have

trained with the founders of NLP. Bioenergetics and many different modern day alternative therapists that include past life regression studies with Dr. Brian Weiss, Transpersonal Hypnotherapy with Dr. Alan Chips and Holotropic Breathwork with Dr. Stanaslav Grof; and many more! You do not have a monopoly on knowledge or the method of its application. Every aspect of what LRH uses came from other sources except the OT 3 and probably some others I don't know about. Everything! Now if you tell me when I use these sources you own it and all its interpretations, then I will say NO WAY! I am a researcher in my own right and I am free to share this any way I please.

You closed your letter to with this:

"The only responsible action for you to take is to cancel the film. It's not too late to do the right thing. Do so."

*And I close mine with this; the only responsible action for you to take is to cancel the SP Declare and make peace. It's not too late to do the right thing. Do so.*

*There is another way, a way to peace through reason and communication. I choose peace and always look to align with mutual interests to join together to improve conditions and relationships. This is my intention, what is yours? Why not give peace a chance, what do you have to lose?*
